

# CityHack 2022

CityU IT Team/ CityU Google DSC/ CityU HKTech 300

## About Us

# CityHack?

CityHack is CityU's largest Hackathon event. We aim to break away from conventional education and provide students with a unique opportunity to create a "hack" through a collaborative effort. For us, hackathon means creative and innovative problem-solving.

CityHack is open to everyone, be it designers, curious individuals, geeks, or even technophobes. Even if you have never been to a hackathon before, believe us when we say: "All you need to be part of CityHack is a passionate heart". The event will be a fulfilling experience for individuals hailing from all sorts of backgrounds.

Various workshops will be provided and held in parallel during CityHack to allow newcomers to pick up new skills, whilst allowing experienced participants to hone their abilities.

# Past CityHack

- > 200 registrations
- > 140 participants
- > 40 teams

## CityHack

29 Jan – 30 Jan 2022

Let's Hack for two days!!

# Teams

6 teams for organizing CityHack 2022

## Event

Event team will design the event flow and arrange the work distribution for every member to host a wonderful CityHack.

## Finance

Finance team is responsible for the budget plan and expenses. It is important that our finance is transparent and just.

## Tech

Tech team is responsible for the website and data. They also serve as tech student helpers during the competition.

## Public Relation

Public Relation team serves as a bridge for connecting to our sponsors and judges.

## Promotion

Promotion team is responsible for promoting CityHack through multiple channels.

## Design

Design team will cooperate with Promotion team for poster design, and Tech team for UI/UX design

# Promotion Methods

## Department Level Promotion Email

An invitational email will be sent to all CityU students across different colleges and departments via the CityU Announcement Portal.

## Social Media

Due to the extensive connectivity of social media, promotion will also be conducted through such mediums, including Facebook and Instagram, to achieve further outreach onto student communities at other universities outside of CityU, even overseas.

## On Campus Promotion

Printed posters will be put up around the campus areas and hall residences to attract more participants who may not follow our social media.

# Sponsorship Methods

## Sponsorship

### Sponsorship

1. Assign an IT specialist as one of our judges in CityHack 2022 on 30 Jan 2022.
2. Fast track interview opportunities for participants.
3. Cash Prizes or Cashless Prizes (e.g., licenses, passes, coupons or products).
4. Souvenirs for participants and judges.
5. Promotion expenses (e.g., online advertisement, events, posters).
6. T-shirts for participants.
7. **Web Service or Cloud Service** for participants and tech team.
8. Provide your company's products for us to include in the competition as one of the topics in CityHack 2022 (we will assign a task force to further discuss the topics with your business).
9. Provide workshops, talks for related topics.
10. Any Kinds of Sponsorship is welcome to further discuss with us.
